## Facility Inspection Checklist

The Facility Inspection Checklist is designed to assist clubs in correctly identifying and proactively managing and mitigating risks to its members and patrons. Sports clubs owe a duty of care to players, officials, volunteers, and spectators to ensure that the facilities used are as safe as possible.

It is necessary to conduct regular site inspections to ensure that a club's facilities and their safety procedures remain up to date. Identifying risks before they occur can reduce a club's exposure to claims for property damage, public liability, personal accident and injury, as well as possible legal action.

The Facility Inspection Checklist provides a basic list of items across key areas of the club environment. Users are encouraged to review the checklist to ensure items are relevant and to make additions where required. **It is recommended that the checklist be used every 6-12 months.**

Facility:

Address:

Date of Inspection:

Inspection Completed By:

1. Club House / Building	Yes	No	Notes
Building entrances and exits clearly visible, accessible and free from trip or slip hazards and obstructions?			
Buildings are in a clean and tidy condition and free from debris?
